15.05.2010
BEFORE MIDNIGHT**

CALL FOR PAPERS

We heartily welcome papers related to the passive house concept.

The 2010 themes are:

- Zero energy developments
- Strategies towards the volume market
- Passive schools, office blocks and health care buildings
- Urban planning towards comfortable living
- Refurbishment; techniques and technologies for insulation and climatisation

If you wish to apply, please send a short e-mail to symposium@passivehouse.be and mention:

- the subject of the presentation
- the point of focus, a short summary of the presentation
- the title and main authors
- the language of the final contribution (Dutch, French or English)
- your resume

According to the vision of the scientific committee, papers will be scheduled as an oral presentation or be refused.

A paper application implies the author(s) acceptance to publish the paper in the conference proceedings.

PASSIVEHOUSE SYMPOSIUM

The PassiveHouse Symposium was founded to facilitate the exchange of ideas, knowledge and progress in the field of energy efficient construction. This symposium offers a platform for speakers all over Europe to share their knowledge on innovating technologies, their research and their experience. In 2009, 410 participants gathered for this symposium to exchange ideas and learn the latest developments.

PASSIVEHOUSE FAIR

On Friday 10th September professionals will be invited to visit the PassiveHouse Fair.

Participants to the symposium can visit the fair exclusively on Friday. About 120 companies will be presenting the latest developments on passive and highly energy efficient products, technologies and services in Europe.

On Saturday and Sunday the fair will be open to the general public and offer a forum for information, discussions and presentations. Planning advice will be provided for people with specific building plans.
